HOW DID HE KNOW.

The two were rather spongy
While sitting on the stairs,
And when the little brother
Came on them unawares,
Two hearts at reckless playing
Were soon amid the hush,
And at the game's quick finish
Each showed a pretty flush.

THE DEATH ROLL.

The Reaper's Rich Harvest in Maysville Since Saturday.

Death has had a harvest in and around Maysville during the past forty-eight hours.

MRS. NANNIE DIETERICH.

Nannie, daughter of Joseph Wallingford and wife of Henry Dieterich, Jr., died early yesterday morning at the home of her brother in the Fifth Ward. She had been alarmingly ill but a short time. The remains were yesterday afternoon removed to the home of her husband in the Sixth Ward, where the funeral will take place tomorrow morning at 10 o'clock, services by Rev. E. B. Cake. Besides her husband she leaves a child about 18 months old. Friends of the family invited.

MRS. GEORGE W. BROADWELL.

Mrs. George W. Broadwell of Ironton came a couple of weeks ago for a visit to her daughter, Mrs. Charles Greenwood. She was taken ill, but no fears were entertained until within the past few days, when her husband was summoned from Ironton and her son-in-law from Knoxville. The end came yesterday morning. The funeral will occur at 2 p. m. tomorrow at Mrs. Charles Greenwood's, services by Rev. T. W. Watts.

MRS. JOSEPH METCALFE.

The wife of Joseph Metcalfe died at an early hour Saturday morning at the family residence on Front street. The funeral will take place at 2 o'clock this afternoon.

INFANT WOOD.

A two-weeks-old son of Mr. and Mrs. George Wood died in the Sixth Ward at 6 o'clock yesterday morning. The burial will be at 11 o'clock this morning, with services by the Rev. E. B. Cake.

KILLED IN THE COUNTY.

James Claybrook, a farmer near Washington, has for tenants the family of Amos Boler. In the family were a boy aged about 8, and Anna, a girl about 6, and a rifle. As this rifle really wasn't loaded, it was used by the children as a plaything. In order to make it more attractive as a toy, the lad loaded it very carefully, and the two were just having dead loads of fun when the gun went off and sent a bullet in the forehead of the girl, killing her instantly. This occurred Saturday afternoon. The burial was at Shannon yesterday.

Moral—Go at once and buy three or four guns for the little ones to play with.

MRS. WESLEY GRAY.

The wife of Wesley Gray, colored, died at Washington yesterday and will be buried at Maysville today.

The School Board of Huntington Township has appropriated \$375 for tuition fund to each school district. This is for a seven-months school.

Governor Bob Taylor of Tennessee says: "I'd rather be a poor mountain farmer, with one gallus and an old hat, than Grover Cleveland sitting in the President's chair with two girl babies on one hand and the Tariff Bill on the other."

In remitting his subscription to THE LEDGER, W. B. Garrett of Spangle, Washington, says: "I could not do without the paper handy. It gives the Democrats a little of what they need a heap of." Mr. Garrett was formerly a resident of the Springdale neighborhood.

The B. and O. S.-W. ran \$41,128 behind its earnings last month. The decrease in the earnings of the N. and W. was \$56,147. The decrease of the Northern Pacific earnings for the month amounted to no less than \$584,388. This looks very much like a "revival in business" indeed.

Dr. A. O. Ralls, one of the best known dentists in the United States, attempted suicide at Lexington by taking a large dose of bromidum. Ralls was once President of the National Dental Association, and is known to every prominent dentist in the Union. He is about 50 years old and has a family.

The new timecard of the C. and O. will go into effect Sunday, May 13th. There will be a general "shakin' up" of train arrangements; but just what the schedule will be has not been determined sufficiently to warrant any positive announcement at this time. It is thought, however, that one of the through trains will leave Cincinnati about 12:30 p. m. This will necessitate a train to take the place of No. 2, which will probably leave Cincinnati at 7 a. m., and run as far as Clifton Forge. It is likely, also, that the present Maysville Accommodation will extend its run to Portsmouth.

The Weekly Public Ledger!

THE MAYSVILLE REPUBLICAN, which is the Weekly Edition of *The Public Ledger*, is issued every Saturday. It contains 40 columns of choice reading matter, twenty of which are made up of editorial, local and neighborhood news. It is a splendid paper to send to Kentuckians living in distant places, as it gives all the news from home. Price \$1 50 a year. Now is the time to subscribe.

The attendance at the Sunday afternoon meetings of the Y. M. C. A. in Newport averages 1,625.

Artitia G. Gilbert graduated from the Louisville National Medical College. She is colored, and enjoys the distinction of being the first and only colored female physician in Kentucky.

Judge Garrett S. Wall was in Covington Saturday, and while there a newsman applied the pump. It was learned that the Judge was not averse to making the race for the Appellate Court.

Rufus Dryden is tearing away his old residence in the Sixth Ward, and will replace it with a new one. The house that is being demolished is a landmark, and has stood the storms of nearly three quarters of a century.

The City Council of Frankfort, having raised a cyclone by the proposed classification of license for business houses, now proposes to charge merchants \$10 a year for each line of goods carried. Thus: Drygoods, \$10; druggists and groceries, \$20.

Lou Stickley of the Sixth Ward struck it rich Saturday. He was sodding his yard and in cutting a piece of sod his knife struck an obstruction. Examination disclosed the frame of a pocketbook, and near it a gold ring and \$1 25 in silver.

Frank Robinson, colored, living in the Fifth Ward got into a scrap and shot in the thigh at a jamboree in the county Saturday night. He declines to disclose who did it or where it was did. Dr. W. S. Yazell dressed the wound, which will keep Frank indoors for a few weeks.

Samuel P. Hager has been elected Eminent Commander of Ashland Commandery No. 28, K. T., John H. Wade Generalissimo, Richard D. Davis Captain General, F. J. Duessler Prelate, Henry O. Schump Senior Warden, William A. Ginn Junior Warden, Charles C. Martin Treasurer, Louis R. Putnam Recorder, Charles H. Green Standard Bearer, S. Wilbur Hager Sword Bearer, Thomas H. Bullington Warder, and Daniel L. Weaver Captain of the Guard.

It is reported that R. D. Davis of Ashland wants to run for Congress on the Republican ticket.

There were two additions and two renewals at the M. E. Church yesterday, and two at the Central Presbyterian.

The stockholders of the Louisville Gas Company endorsed the proposition of the Board of Directors to issue \$600,000 additional stock.

Dr. J. H. Samuel has provided himself with a complete electric surgical outfit, the instruments and battery being the latest in that line.

Colonel T. B. Ripy, the Anderson county distiller, assigned Saturday to the Fidelity Trust and Safety Vault Company of Louisville. Liabilities in the neighborhood of \$500,000.

Two white hearse, side by side, each containing a white casket, headed a funeral procession in Newport Saturday. In them were the bodies of Anna, aged 8, and Atilla, aged 12, daughters of Mr. and Mrs. George Baumbach, who died of diphtheria.

When it was time for the curtain to rise at the Opera-house Saturday night there was less than \$6 in the box office. So it was concluded to refund the money. This may or may not be attributable to the hard times; but when an actress like Madeline Merli fails to draw a \$6 house, it may be set down that the "revival of business" is a long way off.

GHASTLY FIND.

Skeleton of a Man Found Under a Vaneburg Hearthstone.

A special from Vaneburg says some workmen, while removing a hearthstone at the residence of William Moreland unearthed the skeleton of a man, which had evidently been buried there many years.

Ex Congressman George M. Thomas is satisfied that the skeleton is that of a man who was murdered near there twenty five years ago.

He came here from the East to buy land, and was in the habit of displaying money recklessly.

Owing to the fact that several prominent families were believed to have been implicated in the crime the murderers have never been brought to justice.

DOGMAS RIDICULED.

Professor Garvin of Purdue University Creates a Sensation.

An Indianapolis special to *The Enquirer* says a schism is imminent in the Christian Church, known as the Disciples of Christ. It is in many respects analogous to the Briggs case.

Purdue University of Irvington, a suburb of that city, is a church college. There students are not only graduated in the educational branches, but they are fitted for the ministry. Quite recently Professor Garvin, who is at the head of the theological department, has been the storm center of very hostile criticism by the ministry.

Charges of heterodoxy have already been lodged against him, and have been considered by the directory of the university, and at the meeting of the Third District Convention at Crawfordsville the opposition took the form of rebellion. All of the leading ministers of the district took turns in condemning, and a resolution asking him to resign was endorsed by every minister and layman present.

Coupled with the series of resolutions which were passed, it was alleged that he believed in repentance before faith in the salvation of sinners; in baptisms of Holy Ghost and fire as taking place now; Judaism as being the religion of humanity, and Christianity as only a new spirit put into it; that the death of Christ had no more to do with the salvation of men than that of any other good man, and that the gospel of Christ is only a power among other powers in the salvation of men. So far as condemnation of these doctrines was concerned the convention not only condemned Professor Garvin and called for his retirement from the theological school, but it also condemned the young ministers who have gone from the institution imbued with the same faith.

Professor Garvin has been connected with the university for ten years and more. He was educated in the universities of this country and Germany, and is regarded as authority in the Hebrew Scriptures, and as familiar with the best criticisms of the Scriptures in all modern languages. The chief opposition to his new creed is that he places repentance before faith. He bases his authority for this upon a number of Scriptural quotations, prominent among which are Matt. xxi., 32, Acts xx., 21, and Mark i., 15.

All of the students in his department (there being no exception, it is said,) are adherents of his doctrine, and some of them have already taken the field against his critics. When the matter was brought before the Directors a majority of the board were constrained to think that a change in the department over which Professor Garvin presides was desirable because of the vigorous opposition of the ministry, but a healthy minority made such a vigorous kick, and insisted so strenuously that Professor Garvin could not be attacked for advancing views which were authorized by the Scriptures, that no final action was had. A special committee, however, was appointed to still further consider the matter.

It leaks out that during the Christian Convention at Columbus some days ago a petition was circulated and generally signed calling upon Professor Garvin to resign. This petition has not yet reached the Directory.

Professor Garvin is disinclined to recede from his views, and it is quite probable that the storm will continue until he feels compelled to resign. He claims that he has not advanced the new dogma from any spirit of contention, but because he felt it his duty to explain views which he thought the Scriptures fully justified.

Unless his resignation is demanded by the Directory he will not make any public reply to his opponents.

PAPER MONEY.

He Knew All About Their Letter and Figure Marks.

Buffalo Express.

The fat man who sat in the rear seat of the smoker saw a man across the aisle counting his money. "Seeing that roll of bills," he said, "reminds me that I know something about money that very few of the people out of the Treasury Department know."

He reached down into his pocket and fished out a one dollar bill. It was new, and he pointed out a diminutive letter C on it right under the bill's number, and another down in the other corner. "Now," he said, "I don't suppose that a man of you knew that these seemingly unnecessary letters are on the U. S. bills. And even if you had noticed them, I am willing to bet that not one of you can tell what they signify."

Half of the men in the car were listening to the fat man, and none of them could tell what the letters meant, although one or two said that they had noticed them.

"Well," went on the fat man, "I wish one of you gentlemen would take a bill and tell what the last four figures of the number are."

The commercial traveler had a bill. The last four figures of the number were 5,321. The fat man said almost instantly, "The letter on that bill is B." When the bill was examined the diminutive B was found on it in two places.

Half a dozen other bills were produced and when the fat man was told the last figures of the number he was able to tell what letter would be found on the bill. In each case the letter was either A, B, C or D.

"The explanation is simple," said the fat man, after he had done the trick successfully every time. "If you take the last four figures of the number on any bill, no matter what its denomination is, and divide them by four, you will, of course, have either a remainder of zero, one, two or three. If the remainder is zero, the letter on the bill will be A. If it is one, the letter will be B. If it is two the letter will be C and if it is three the letter will be D."

"This is one of the many precautions taken by the Government against counterfeiters. You can tell instantly whether a bill is bad or good by making that test. I wouldn't give a five-cent piece for a \$1,000 bill, no matter how perfect it seemed, if its little letters did not correspond with the remainder obtained by dividing the last four figures of its number by four."
